Projects

Huda – Islamic Companion App

▶ [Play Store](#)

A comprehensive Islamic mobile application built with Flutter and GetX, designed to enrich the spiritual and daily lives of Muslims.

- Integrated Quran module with Tafsir, audio recitation, and transliteration for deeper understanding.
- Accurate Qibla direction and Hijri calendar to support daily religious practices.
- Prayer times with customizable notifications based on location and madhhab preferences.
- Extensive Hadith collection from multiple authentic sources for easy exploration and study.
- Huda AI – an Islamic AI assistant providing answers grounded in the Quran and Sunnah.
- User-friendly interface supporting dark and light themes for comfortable use at any time.
- Additional features include daily Islamic reminders, duas, and bookmarking for quick access to favorites.

Sire – Multi-role E-commerce Platform

▶ [GitHub](#)

A modern, full-stack, multi-role e-commerce platform built with Flutter and PHP.

- Designed for customers, delivery personnel, and administrators to provide a seamless shopping, delivery, and management experience.
- Implemented user authentication, product browsing, search, favorites, cart, and order tracking functionalities.
- Integrated checkout system with coupons, address management using GPS, and real-time notifications.
- Delivery module with order management, Google Maps navigation, and live order tracking.
- Admin dashboard with analytics, product and category management, and inventory tracking.
- Includes coupon and notification systems, detailed sales reports, and business insights.
- Supports multi-language localization (Arabic, English, and Spanish) for a global user base.
- Open-source, modular architecture licensed under MIT for scalability and maintainability.

Experience

Mobile Application Developer

Aug 2024 – Sep 2024

Code Buddy Oman · Internship — Sohar, Oman (Hybrid)

- Developed the front-end of a mobile ERP application using **Flutter** and **GetX** for state management.
- Built a fully responsive UI, ensuring smooth functionality on both **Android** and **iOS** platforms.
- Created user-friendly interfaces with animations to enhance the app's usability and appeal.
- Demonstrated excellent coding, time management, and problem-solving skills to meet project goals.
- Collaborated with designers and developers to ensure efficient implementation and resolve challenges.

Web Development Intern

Apr 2024 – Jun 2024

INTAJ SUHAR FOR ADVANCED MANUFACTURING LLC · Internship — Sohar, Oman (Hybrid)

- Designed and developed a responsive website using **Wix**, ensuring compatibility across mobile and desktop platforms.

- Worked closely with stakeholders to gather requirements and deliver a visually engaging and functional site.
- Optimized site navigation, layout, and responsiveness to enhance user experience and performance.
- Delivered the project on time by effectively managing tasks and maintaining clear communication with the team.
- Addressed technical challenges and provided solutions to ensure project success.

Career Objective

Focused mobile app developer with expertise in front-end development and UI design. Passionate about creating innovative, user-friendly mobile applications that solve real-world problems and enhance user experiences. Eager to contribute to impactful projects and grow as a professional in the field of mobile app development.
